

Dr. Wonder's Workshop

SIE1 ACTIVITY PAGE #1 - DOT-TO-DOT

Billy learned an important lesson about being fair. How did he learn that lesson? He entered a special contest for building models. But Billy did not build his own model. He used a model that Pops built. Billy was not being fair to the other people in the contest because Billy was not following the rules.

What was the model that Billy entered in the contest? To find out, draw straight lines to connect the dots below starting at the dot with number 1.

The last dot is number 83. Then, you may color the picture.
